

Insulated Sectional Garage Doors

DESCRIPTION	SeceuroGlide Sectional Garage Doors are manufactured from foam-filled steel panels and are operated by key fob transmitters as standard. The SeceuroGlide Sectional Garage Door utilises a side sprung tension spring system. They are designed to require minimal headroom above the opening and are fully UKCA compliant and safety tested.
--------------------	---

DIMENSIONS	Minimum Side Room Required	Drive-Through Height		Minimum Headroom Required	
		Manual	Electric	Manual	Electric
Plain	85mm	DAYLIGHT OPENING HEIGHT – 230mm	DAYLIGHT OPENING HEIGHT – 20mm	100mm	130mm

PANELS

DESCRIPTION	Twin-walled steel panel, insulated with CFC-free polyurethane foam to reduce heat loss and sound transmission.
DIMENSIONS	Nominally 500mm or 610mm high x 40mm thick. Visio vision panels are 250mm high.
ASSEMBLY	Panels are held in place with white powder coated hinges and brackets. White powder-coated end caps. Black powder-coated top and bottom rails, which incorporate a 25mm rubber seal to help prevent water ingress and draughts.

INSTALLATION OPTIONS

FITTING	SeceuroGlide Sectional Doors must always be installed by a trained installer and in accordance with the specified fitting criteria (as stated in the installation instructions). The door must always be fitted internally. The guide rails may be installed in the reveal (between the opening) but in this instance must be fitted with special reveal fitting kit.
----------------	---

All SeceuroGlide Sectional doors come with an Operating & Maintenance manual.

Supplied by SWS UK, Claughton, Lancs, LA2 9LA.
